Landmark Firewood Services

Indoor storage – ready for shipping

Landmark provides a high quality, premium firewood service to commercial (including Parks Canada), public, and private customers throughout BC and Alberta. Our secure log supply allows for the production of firewood in multiple species and piece sizes. All our firewood is sorted and packaged by hand, resulting in a clean product with no contaminants or waste. We are one of the few companies that offer birch in a campfire bundle. Customers prefer birch due to its aesthetic qualities and higher BTU values. Unsorted bulk sales are also available at a considerable discount.

Premium Firewood

Our premium line of firewood is made up of handpicked pieces that provide for easy stacking. It is ideal for urban residences where storage room is limited. These packages contain 1/3 cord and are delivered on pallets. The size and quality of these pieces are perfect for customers wanting to enjoy their wood burning fireplaces. The shearing action of our processor (no sawing), along with hand-sorting and packing, provides a product that is very clean and ready to use.

Premium firewood packaged for shipping

Pre-bundled Campfire Firewood

Our pre-packaged campfire bundle is handpicked and packaged in 1 cubic foot bundles. This product is suited to commercial operations where firewood bundles are offered or sold to their clients. Delivery models can be modified to suit your individual needs. Delivery options include stacked pallets that can be stored on your site or pre-loaded shipping containers that can be replaced when your inventory runs low.
